The OX QA team has verified all bug fixes.

7. Side effects

No side effects.

8. Known issues

LinkedIN not accessible

After LinkedIn has changed their authentication model, earlier crawlers provided by Open-Xchange are no more able to properly access Data from LinkedIn. With the latest major release OX6 v6.20 Open-Xchange has implemented "oAuth", the more secure authentication protocol and de-facto standard for accessing social services. For continued subscriptions to LinkedIn, please update your installation to OX6 v6.20."
