1 Shipped Product and Version

Open-Xchange AppSuite backend 7.6.1-rev6

2 Bugs fixed since previous Public Release

This document provides a summary of bugfixes and changes that have been applied subsequently to shipping Release 7.6.1.

34985 Configread bundle reads too many files

Restrictive reading of configuration and improved logging in case a .properties file contains a malformed Unicode escape sequence. Unfortunately it is not possible to output the exact line, but at least the affected .properties file.

3 Tests

The Open-Xchange QA team has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server setup for system and integration testing.

All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.

4 Fixed Bugs

34985,
