

Release Notes for Patch Release #4670

2018-04-23

Security Patch Release

This Patch Release addresses critical vulnerabilities; please consider deploying it as soon as possible. Not deploying this Patch Release may result in remote service exploitation, security threats to users and exposure of sensitive data.

Detailed vulnerability descriptions will be publicly disclosed no earlier than five (5) working days after public availability of this Patch Release. There is no indication that one or more of these vulnerabilities are already getting exploited or that information about them is publicly circulating.

2 Vulnerabilities fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Patch Release #4555. Solutions for vulnerabilities have been provided for the existing code-base via Patch Releases.

58023 CVE-2018-9998
CVSSv3: 3.6

57956 CVE-2018-9997
CVSSv3: 4.3

57692 CVE-2018-9997
CVSSv3: 5.4

57095 CVE-2018-9997
CVSSv3: 5.4

57016 CVE-2018-9997
CVSSv3: 5.4

56740 CVE-2018-5754
CVSSv3: 5.4

56407 CVE-2018-5753
CVSSv3: 4.3

3 Bugs fixed since previous Public Release

This section provides a summary of bug fixes and changes that have been applied subsequently to shipping Patch Release #4555.

57933 Not able to insert emojis while composing mail

Update of tinyMCE plugin changed API: custom function to insert emoji into tinyMCE editor is not part of plugin any longer.

This has been solved by adding default implementation for custom insert method to restore old behaviour.

57913 Download Drive folders as a zip limited to 1 GB not documented to configure

This has been solved by adding missing property documentation.

57771 Forwarding email only uses displayname

The plaintext was again sanitized superfluously.
Just sanitize email-addresses once to fix this.

57740 Autoforward filter rule causes other rules' "file into" actions to act as "copy into"
"Keep a copy of the message" led to a sieve rule with the command "keep".
This has been fixed by adding "copy":true" to the redirect action "Keep a copy of the message".

56948 External connected Drive - View and Filter not working correct

View and Filter were not working for external file storages.
This has been fixed by removing the filter for external file storages because external file storages cannot and do not provide the full "infostore" feature set.

4 Tests

Not all defects that got resolved could be reproduced within the lab. Therefore, we advise guided and close monitoring of the reported defect when deploying to a staging or production environment. Defects which have not been fully verified, are marked as such.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server set-up for system and integration testing. All changes have been checked for potential side-effects and effect on behaviour. Unless explicitly stated within this document, we do not expect any side-effects.

5 Fixed Bugs

57933, 57913, 57771, 57740, 56948, 58023, 57956, 57692, 57095, 57016, 56740, 56407,
