3 Bugs fixed with this Release

This section provides a summary of bugfixes and changes that have been applied subsequently to shipping Release 1.6.4. Some of the announced bugfixes may have already been fixed at the existing code-base via Patch Releases.

43796 Synchronization failure when reconnecting VPN
In case a specific type of VPN configuration, Drive fails to recover the sync status after connecting to VPN. This was caused by intermediate sync errors introduced by redirection codes of a HTTP proxy. Now OX Drive re-tries those attempts within 1-2 minutes.

37506 OXDrive client crashes
This crash only occurred on one customer system and was fixed by making some method crash safer and furthermore the logging is more detailed now.

43564 OX Drive stays offline after waking up from sleep
In case a computer has been put to sleep and gets connected to another network during that time, OX Drive was unable to re-establish the connection when waking up the machine. This has been solved by considering network changes during inactivity.

4 Tests

The Open-Xchange QA team has successfully verified all bug fixes that could be reproduced within a lab environment.

To avoid side effects, the shipped packages have gone through automated regression test on both, a Continuous Integration System and a dedicated server setup for system and integration testing.

All changes have been checked for potential side-effects and effect on behavior. Unless explicitly stated within this document, we do not expect any side-effects.
